Newfane, Vt., February 1, 1922.

We, the undersigned, certify that we have examined the orders and accounts of the School Directors and find them correct as printed.

L. H. HIGGINS,
V. W. RANNEY,
Auditors.

Newfane, Vt., February 1, 1922.

We, the undersigned certify that we have examined the reports of the several town officers and find that they agree with the figures herewith submitted.

L. H. HIGGINS,
V. W. RANNEY,
Auditors.

Report of School Board

Your board begs leave to make the following report.

The town has maintained school in districts Nos. 1, 2, 4, 6, 8; No. 6 being a two-room school until the end of the school year. Beginning in September, one teacher only has been employed.

Since September 1, the salaries of the teachers have been uniform; each teacher receiving eighteen dollars per week as a basis, two dollars per week for experience and whatever rebate is received from the state, according to their qualifications.

The board wishes to express in this report its satisfaction because of the excellent work done by the teachers, and to assure patrons of the schools that we believe no town has more faithful teachers than are found in the schools of Newfane.

The school property is in good condition but paint and heating apparatus are needed on and in the schoolhouses at South Newfane and Brookside. Before school began in September, the toilets of all the schools were put in good repair, and interiors painted. There is great need of another closet in district No. 4, where one toilet is used for both sexes, a condition which should not continue. The steel roof on the schoolhouse in district No. 4 was painted and some repairs made on the South Newfane schoolhouse.

The following were the listed pupils in the several districts of the town, at the time of the school census:

Newfane,	35 pupils,
Williamsville,	34 pupils,
Union District,	21 pupils,
South Newfane,	20 pupils,
Brookside,	13 pupils,

123

making a total of 123 pupils, of whom 15 are, or were, high school students.

What the future may bring forth in decreased school expenses, we cannot foretell, but it is safe to say, that while we will have some reductions in the year to come, it will be necessary for the board to have 100 cents on the grand list, for use of the schools for the next current year.

Respectfully submitted,

H. J. HEATH,

G. M. LOVE,

School Directors.

Report of School Superintendent

School Board and Citizens:

Following is my annual report.

The enrollment for the fall term differed but slightly from last year.

The following table gives the distribution by schools and grades:

Schools	Grades,	1	2	3	4	5	6	7	8	Total
Newfane,		8	2	1	3	6	0	6	2	28
Union,		1	2	3	0	2	0	3	1	12
Williamsville,		1	1	1	4	2	3	2	3	17
Brookside,		1	0	2	1	1	2	0	2	9
South Newfane,		0	1	5	2	2	0	0	1	11
Totals,		11	6	12	10	13	5	11	9	77

The schools were put in excellent condition before school opened last fall. Outbuildings were repaired and painted, flags were furnished and flagpoles where necessary, and best of all, a trained teacher in each school. The schools have taken part in the Grange Fairs and other community activities.

Through the effort of Mrs. Love, a health fair was held at Williamsville, the entire student body attending.

The commissioner of education is urging the standardizing of all schools. Newfane, with a very small expenditure, could have two superior and the other three standard schools.

I urge more than all else that every father and mother display interest in the progress of their child by visiting the school at least once each term.

Respectfully yours,

CHAS. H. STRAITIFF.

February, 1922.

District Health Officer's Report

A résumé of the prevalence of communicable diseases reported to the office of the district health officer, Sanitary District No. 10 during 1921.

Total number reported for twenty-six towns, 468.

Based upon the 1920 Census for these towns, 1.2 per cent.

The following list shows the number of each kind of disease reported:

Chicken pox,	174
Whooping cough,	143
Scarlet fever,	72
Diphtheria,	26
Measles,	23
Mumps,	13
Smallpox,	6
German measles,	5
Typhoid fever,	4
Influenza,	3
Infantile paralysis,	2

Chicken pox has been prevalent in 13 towns, in most instances throughout the year, at no time reaching epidemic proportions.

Three towns had limited epidemics of *whooping cough*, the number of these cases reported being largely due to the final weeks of a general epidemic in one of the larger towns.

Diphtheria has been reported in 5 towns—23 of the cases being in 3 towns, and in each, traced to carriers.

Cases of *measles* appeared in 10 towns. Promptness by physicians in recognizing the disease and establishing adequate quarantine, together with the coöperation of families affected, account for the absence of epidemics of this highly contagious disease.

Scarlet fever has been unusually prevalent throughout the district and state. Most of the cases have been of a very mild type, the illness being so brief and the eruption either absent or so indistinct that suspicion was not aroused, nor was a physician called. Fully one-third of the cases listed were of this kind, and their existence was learned only when desquamation was taking place. These mild unrecognized cases are believed to be, and undoubtedly are, the reason for the continued prevalence of this disease.

Quarantine in *smallpox*, *infantile paralysis*, *diphtheria* and *scarlet fever* has been under the personal supervision of the district health officer, and most of the families in which these diseases have existed have been visited either with the attending physician or at his request.

In *Newfane* there were 13 cases of *whooping cough*, 12 of *chicken pox*, 2 of *mumps* and 1 each of *measles* and *German measles*.

Nine violations of Public Health Laws were reported, and so far as possible, corrected.

Respectfully submitted,

C. S. LEACH, M. D.,
District Health Officer.

Births in Newfane in 1921

- May. 5 A son to Francis L. and Hester R. Gaines.
 June 10. A son to Charles R. and Lena A. Thomas.
 12. A son to Charles H. and Annie Styles.
 A son to Albert E. and Eskie L. Brown.
 July 14. A son to Frank C. and Jessie M. Smead.
 24. A son to Arthur W. and Varina E. Brooks.
 Aug. 7. A son to Herbert C. and Nina E. Bingham.
 24. A son to John L. and Florence E. Carey.
 Sept. 10. A daughter to Dana G. and Nellie H. Perry.
 13. A son to Glynn A. and Frances M. Crapo.
 Oct. 3. A son to Ernest E. and Ruby J. Bailey.
 Dec. 13. A son to Lewis C. and Inez Bills.
 24. A daughter to Joseph J. and Gertrude E. Druke.

Marriages in Newfane in 1921

- Jan. 2. Arthur W. Brooks and Varina E. Wiswall.
 Feb. 4. Newton M. Batchelder and Lulu M. Page.

This was money given us by the state to improve unselected highways. We built 101 rods of gravel road 16 feet wide, put in three 12-inch corrugated iron culverts with concrete head walls and erected 384 feet of standard guard rails and painted the same.

W. A. WILSON.

Newfane, Vt., February 1, 1923.

We, the undersigned, certify that we have examined the orders and accounts of the School Directors and find them correct as printed.

V. W. RANNEY,
WARD H. EAGER,
Auditors.

Newfane, Vt., February 1, 1923.

We, the undersigned, certify that we have examined the reports of the several town officers and find that they agree with the figures herewith submitted.

V. W. RANNEY,
WARD H. EAGER,
Auditors.

Directors' Report

Your board of school directors beg leave to offer the following report :

The town has maintained schools in Nos. 1, 2, 4, 6, 8 and, since September, an additional part-time primary school in No. 2, the heavy enrollment there making this necessary. During the summer all the used schoolrooms were painted and otherwise repaired at rather heavy expense. As the state gives a 50 per cent rebate on all repair work exceeding \$200.00, it was thought best to repair all in one year, that this rebate might be secured.

There are some more repairs to be done, but we hope to complete them before July 1.

Because of these repairs and some bills of one and two years' standing, which had not been presented to the board by the former superintendent, and the unusual number of advanced students requiring tuition, also the necessity of an extra teacher, the board has exceeded its appropriation, but we feel confident that a rate of \$1.10 on the grand list will be ample for the coming year.

For the year reported, the town has had an average number of fifteen in schools of advanced instruction, and an average of eighty-four for the rural schools.

Respectfully submitted in behalf of the board of school directors,

H. J. HEATH,
Chairman.

Report of School Superintendent

To the School Board and Citizens of Newfane:

Your school superintendent took over the work of the district August 7. This district comprises nine towns: Athens, Brookline, Dover, Grafton, Marlboro, Newfane, Stratton, Townshend and Wardsboro. At present there are no schools in Stratton. In this district there is a school population of 533 distributed among 31 schools.

Since the opening of the schools in September until January 1, 230 school visits had been made, necessitating over 2,000 miles' travel. Fifty visits have been made in the Newfane schools.

Newfane is to be congratulated on her excellent schools. The repairs made last summer added much to the efficiency and attractiveness of the schools. Five of your teachers hold qualification certificates and the other one a probationary certificate. All are doing good work. There seems to be a most cordial relation between the school board, the teachers and the public.

An effort is being made to make the work of the schools throughout the district more uniform. When pupils move from one town into an adjoining town they ought immediately to fit into the same grade where they had been in a former town.

Just recently tests in arithmetic have been given to all seventh and eighth grade pupils throughout the district. Other tests will probably be given soon. These examinations will show pretty clearly the work being done in the various schools.

Throughout the rural sections of Vermont much interest is being taken in the matter of standard schools. During November Miss Rose Lucia, State Supervisor of Rural

Schools, visited the Newfane village school and made recommendations which, if carried out, would make the school standard. Below is the official rating made by Miss Lucia.

GRAMMAR SCHOOL

Building and grounds	14	possible 26
Equipment	17	27
Teachers	16	18
Pupils	10	12
Community	11	17
	—	—
	68	100

PRIMARY SCHOOL

Building and grounds	11	possible 26
Equipment	13	27
Teachers	16	18
Pupils	10	12
Community	6	17
	—	—
	56	100

The difference in rating for the two rooms would be understood if one were to study the score card. The real difficulty in both rooms is to secure the proper lighting. The expense necessary to make the changes required to bring the school up to 75 points (standard) would be considerable. Probably the school board would not feel justified in spending so much money on any one school. However, I wish that there might be sufficient community interest in this matter so that the village community would undertake to raise the money as they might for any other community project.

If one school in the town was made standard in this way, then possibly the other communities would follow the example and try to standardize their schools.

Respectfully submitted,

G. W. POWERS,

District Superintendent.
